SUMMARY

Recent B.Tech graduate in Computer Engineering with a strong foundation in Java, Python, SQL, and full-stack development. Experienced in building web and Android applications, integrating APIs, and working with databases through academic and personal projects. Interested in building practical software solutions, solving technical challenges, and contributing to a dynamic software development team.

TECHNICAL SKILLS

- **Programming Languages:** Java | Python | JavaScript | Dart
- **Web Development:** MongoDB | Express.js | React.js | Node.js
- **Databases:** SQL | MySQL | MongoDB | Firebase Realtime Database
- **App Development:** Android App Development | Flutter
- **Tools & Technologies:** Git | GitHub | REST APIs | Postman | Playwright

PROJECTS

BugTrace – Website Failure Analyzer | React.js, Node.js, Express.js, MongoDB, Playwright **2026**

- Developed a web-based diagnostic tool that scans websites and identifies critical issues, including JavaScript errors, console errors, failed network requests, and HTTP failures.
- Integrated browser automation and REST APIs to collect diagnostic data and store scan results in a MongoDB database.
- Built an interactive incident dashboard to display detected issues and streamline investigation of website failures.

Indian Sign Language Recognition System | React, Flask, Tensorflow, Gemini API **2026**

- Built a sign language recognition system to support accessible communication in healthcare settings.
- Worked on an Indian Sign Language Recognition System to facilitate communication between deaf individuals and doctors, promoting more accessible healthcare interactions.

VolunVibe Hub – Volunteer Management System | Java, Android Studio, Firebase **2024**

- Developed an Android application connecting volunteers with organizations and local volunteer opportunities.
- Implemented volunteer application processing, image-based post uploads, and Firebase database integration.
- Designed organization discovery and filtering features to help users find relevant opportunities.

EDUCATION

B.Tech in Computer Engineering **2022 – 2026**
Shah and Anchor Kutchhi Engineering College, Mumbai

- CGPA: 8.62/10

Higher Secondary Certificate (HSC) **2022**
D. G. Ruparel College of Arts, Commerce and Science, Mumbai

- Percentage: 70.33%

Secondary School Certificate (SSC) **2020**
Nate Nagar Vidya Mandir, Nate

- Percentage: 91.00%

CERTIFICATIONS

- Java Programming for Beginners – Infosys Springboard
- AWS Cloud Practitioner Essentials – Amazon Web Services (AWS)
- Android Developer Virtual Internship – Google for Developers / AICTE
- Full Stack Development – Infosys Springboard

ACHIEVEMENTS & PUBLICATIONS

- **Semi-finalist, Project Deep Blue (Season 11):** Reached the semi-final stage of the competition.
- **Co-Author, IEEE Publication:** "V-Vibe: Efficient Volunteer Management using Mobile Technology"
